pasta &
truffles

We are a company based in Italy and the UK supplying fine Italian food to restaurants, gourmet food stores, caterers and cookery schools.

All the products we sell originate from small farmers and niche artisans who specialise in traditional food of the highest quality, mostly PDO, PGI or Organic certified.

Great healthy ingredients for great healthy dishes.

There is **pasta** and pasta, it all depends on what kind of dish you are looking for. Our pasta comes from artisanal producers who proudly apply their long-established skills in making a "piatto di pasta" unforgettable - be it spaghetti, penne, egg pasta or regional delicacies such as trofie liguri, orecchiette pugliesi or valtellina pizzoccheri.

We also supply tasty organic **pulses and grains**: tiny Umbrian lentils - the best in the world, according to star chefs from London to Hong Kong; heirloom legumes such as roveja, cicerchia, and black chickpeas; the one and only PDO emmer, an ancient wheat also known as farro, delicious in soups and fresh summer salads.

We offer a selection of single estate premium quality **extra virgin olive oil** from organic crops. The olives are harvested early in the season (when the oil content is lower but superior in quality) and milled within hours of picking. The final result is EV olive oil with a distinct aroma and character, with high levels of antioxidant rich polyphenols, and less than 0,2% acidity. This means health with a capital H.

Truffles are our secret weapon. We provide fresh truffles all year round, shipped from Acqualagna in Le Marche, where they are hunted daily. We also offer one of the finest range of truffle-based gourmet specialities: sauces, olive oil, honey, pasta, rice, polenta, preserved truffles, and a 100% natural line of truffle products.
